

ENGAGEMENT INDEX

*Monitor and manage
employee engagement
easily, efficiently and
economically*

How engaged are YOUR employees?

Engagement is more than a buzz word. It has direct impact on employee performance and retention.

Engaged employees are passionate, proud and committed. They have a line of sight on their future and shared ownership of your organization's business goals. They use their talents and discretionary effort to support your company's quest for competitive advantage.

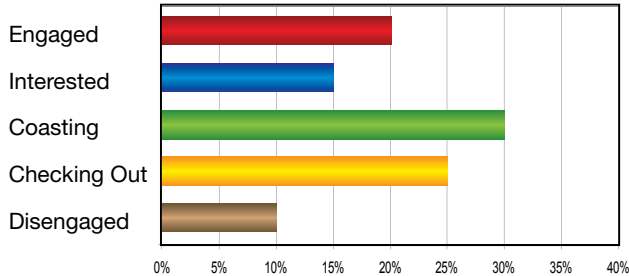

The Engagement Index™ gives you real-time information about how engaged your employees are so you and your managers can take immediate action to remove barriers to optimize employee performance and drive retention.

A Hewitt and Associates study found that organizations with high engagement are 78% more productive and 40% more profitable than those organizations with low engagement levels.

Do You Know How Engaged Your Employees Are?

The Excellence Engagement Index™ gives you vital information to monitor engagement and drive retention.

Engagement Index Features:

- 12-month user license
- Anonymous employee comments
- Comprehensive manager reports
- Engagement trend report
- Optional feature linking engagement to financial results

Excellent Workplace Model™

The Excellent Workplace competencies are the foundation for high engagement.
